Projects

Vendbase - Multi-Tenant SaaS Platform,

05/2026 – 07/2026

React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Stripe

- Developed a **multi-tenant SaaS** platform utilizing a **shared architecture** and secure tenant-scoped API endpoints with strict role-based access control (RBAC).
- Containerized services using **Docker** to ensure consistent local environments and streamlined deployment workflows.
- Integrated third-party services including **Stripe** for secure payment processing and **Cloudinary** for scalable media management.

PharmaCare - Smart Pharmacy Management System,

12/2025 – 01/2026

React.js, Vite, Tailwind CSS, TanStack Query, Node.js, Express.js, SQLite, Drizzle ORM

- Built a monorepo pharmacy system featuring a real-time dashboard, barcode-scanning **POS**, and full **CRUD operations** for inventory and prescriptions.
- Engineered a robust backend with **12+ Express REST APIs** and **Drizzle ORM** over SQLite (WAL mode), supporting automated JSON backups and Excel/PDF exports.
- Designed responsive, intuitive user interfaces using **Tailwind CSS** and optimized client-side state with **TanStack Query**.
- Achieved optimized **sub-second query responses** for critical pharmacy inventory and sales data operations.

Custom Full-Stack Web Platform,

07/2026 – Present

MERN Stack, React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developing a full-scale web platform utilizing **10+ core RESTful APIs** and modular **MERN stack** architecture tailored to client requirements.
- Designing responsive user interfaces and implementing core backend features, secure **REST APIs**, and database schemas tailored to client requirements.
- Managing the end-to-end development lifecycle from initial requirements gathering to deployment.
- Containerized the application and services using **Docker** and **Docker Compose** to ensure seamless local development environments and consistent deployments.
